Smooth Trip Travel Gear adds 2 new products to the Neat'n Fresh collection of antimicrobial travel accessories

PORTLAND, ME., January 1, 2016 – Sweaty shoes, workout gear and damp swimsuits are breeding grounds for bacteria and the odors they cause. To solve this problem, Smooth Trip has added 2 new products that feature antimicrobial product protection.

All Smooth Trip products with the Neat 'n Fresh™ label indicates that the product is treated with antimicrobial protection to prevent the growth of mold, germs and bacteria, creating an odor-blocking barrier to keep clean clothes and luggage fresh.

The set of 2 laundry bags feature tear-resistant, rip-stop polyester fabric with a cinch toggle closure. The smaller 11x15" bag is perfect for short trips, while the larger 16x24" bag packs extra clothing for longer trips.

MSRP: \$9.00

The set of 2 chamois cloth shoe bags feature durable, soft microsuede to protect fine footwear, and are oversized at 9x14" to fit all shoe sizes.

MSRP: \$10.00

"Smooth Trip Travel Gear makes travel more comfortable, safe and convenient." said David McClees, owner and president at Talus. "We're always looking for ways to make trips 'smoother' with common sense, reasonably-priced and easy-to-use travel accessories."
