BLUETOOTH SPEACKERPHONE

YOU ARE NOW CONNECTED!

Not too long ago Planet Traveler rocked the luggage industry with its revolutionary Space Case 1 the worlds most advanced smart suitcase and was featured on CNN, Forbes Magazine, Air Canada and Delta Air. Now, we at Planet Traveler are proud to announce the Space Case Utility, a day to day case that is perfect for the modern professional. The Space Case Utility (featured in Stealth Black) is a case designed with the purpose of adding convenience to your everyday life. Large enough to carry your laptop and anything you might need to bring to a meeting yet compact enough to replace your briefcase, the Space Case Utility will feature a digital biometric lock, Global Tracker GPS system, power bank, Bluetooth speakerphone, anti-theft sensors and our 10 year cloud protection. The uses for the Space Case Utility go far beyond the professional world and we can't wait to see how our product will be incorporated into people's day to day lives. It is due to hit shelves in 2016.
