The patented Contour Grip provides superior comfort and control, while relieving fatigue on the shoulder, arm, hand and wrist. The telescoping handle with stops at 38" and an extra-tall 42.5" ensures a comfortable roll for users of different heights.

With a tough, scratch-resistant shell treatment called ChromaShift™, the WalkAbout Spinners 3 Hardside models not only withstand the rigors of frequent travel, but change color as the light changes and viewing angles shift. The game-changing ChromaShift™ technology combines strong scratch-resistance with compelling visual appeal. It's all part of Walkabout Spinners 3 Hardside's premium contemporary design. Ultra-lightweight and featuring our integrated TSA lock, this collection offers Travelpro customers the ultimate in style, innovation and value.

WalkAbout Spinners 3 Softside models are extremely lightweight, with the 21" Spinner weighing under six pounds. With water repellent coating inside and out, this luggage has an H2O Guard which protects the interior lining from moisture while the DuraGuard® exterior coating features stain and abrasion resistance for greater durability. A unique bottom tray aligns and stabilizes the wheels for enhanced durability and effortless maneuverability. Its lightweight honeycomb frame integrated with the bottom tray provides outstanding lightweight durability.
