

FOR IMMEDIATE RELEASE:

Travelpro® Maxlite® 4 Collection Offers the Pinnacle of Comfort and Convenience for Savvy Travelers

*-- Lighter and more durable than ever, this extensive line features
11 uniquely lightweight and durable pieces --*

Boca Raton, FL – January 20, 2016 – Lighter and stronger than ever, the Travelpro® Maxlite® 4 Collection allows you to travel with more comfort and convenience than you could ever imagine. This extensive collection features 11 singularly lightweight and durable pieces, including Spinners and Rollaboard® models, which have the look and quality of much more expensive luggage.

Packed with innovations like tapered expansion for added stability, the Contour Grip on Spinners for more comfort, and stylish accents throughout, Maxlite 4 makes travel a pleasure, rather than a hassle. Plus every piece is tested to our most demanding standards and backed by our reassuring Lifetime Warranty.

The Maxlite collection includes a H2O Guard that protects the interior lining from moisture while the DuraGuard® exterior coating features stain and abrasion resistance for greater durability. The 4-wheel 360-degree Spinner wheels are easy to navigate through any airport, providing maximum maneuverability and a smooth glide in every direction.

“Originally developed by a pilot, Travelpro luggage has all the qualities flight crews and frequent travelers look for: amazingly durable construction, travel-tested features, premium fabrics, innovative design and quality materials built to go the distance,” said Scott Applebee, Vice President of Marketing for the Travelpro family of brands. “Maxlite 4 is our lightest weight collection, but not at the expense of durable construction.”

Other welcome extras include a Patented Contour Grip with rubberized touch points which give you greater comfort and control when pushing Spinner luggage. Plus you get a telescoping handle that adds length and strength, with stops at 38” and extra-tall 42.5” to ensure a comfortable roll for users of different heights.

An airline-grade aluminum extension handle with grooved tubes add strength and stability to support a tote or case. High performance ball-bearing inline wheels on the Rollaboard models are built for high-mileage travel, tested to the same standards as those on our more expensive collections.

On Spinner models, there is an innovative, full-bottom tray which aligns and stabilizes the wheels for enhanced durability and effortless maneuverability. Crash-guard wheel housings, a skid guard and molded corner guards provide protection over the long haul.

Thoughtful touches abound, such as an exterior ticket pocket on carry-ons which allow for quick and easy access to documents and accessories. Cushioned top and side carry handles provide convenient and comfortable handholds, which you will appreciate after a long day of travel.

Seasoned travelers will enjoy the roomy main compartment that has tapered expansion capability of up to 2” on select models, maximizing packing flexibility while keeping the center of gravity low. The line also features an “intelligent” interior with a full-size lid compartment that zips open to keep

pressed shirts and pants wrinkle free. The zippered side mesh pocket is ideal for storing bulky power cables, chargers, other portable electronics, or socks and belts, while adjustable hold-down straps keep contents in place during travel.

The Maxlite 4 Collection consists of a Soft Tote, Bi-Fold Garment Bag, Rolling Tote, 22" and 26" Expandable Rollaboards, 21", 25" and 29" Expandable Spinners, Rolling Carry-On Garment Bag, International Carry-on Spinner and an International Carry-on Rollaboard. All pieces are available in your choice of ocean mist blue, black and purple fabric colors.
