Lewis N. Clark Adds IP-X8 Waterproof Pouch to WaterSeals Collection

Elk Grove Village, IL (PRWEB) July 2016

Joining [Lewis N. Clark's®](#) WaterSeals™ collection, the new Tech-Protect Automatic Magnetic Waterproof Pouch allows water lovers to use their favorite electronics even further underwater.

A long-time favorite, the [WaterSeals Multipurpose Pouch](#) is ideal for the beach, waterpark, campground, as well as boating, kayaking, and canoeing. Individuals can take electronics like cameras, MP3 players, and phones, and smaller items such as credit cards and money up to 9 feet underwater with this pouch.

However, the new WaterSeals Tech-Protect Automatic Magnetic Waterproof Pouch follows the IP-X8 standard, and is tested and rated for submersion of 100+ feet/30 meters. In addition to the above activities, this pouch is perfect for swimming, scuba diving, snorkeling, and more. It is also dust-proof to a hermetic level, ensuring that no debris will enter the pouch.

"We're excited to add the new Tech-Protect Pouch to our growing line of waterproof products. What makes this product unique is its super strong double layer of magnets that seal the closure audibly so you know for sure your phone is safe to submerge in the water. It's also lightweight making it less cumbersome to carry around your neck," said Jen Panattoni, Director of Business Development.

Additionally, the clear TPU material allows users to take crystal clear shots with their cameras and to use their phones' touch screens easily. Voice and audio controls can be controlled without headphones or audio jacks, and the included lanyard ensures that belongings are always close at hand.

"We're seeing people use these pouches everywhere from trips to Thailand to snapping pics of their kids at the pool; nobody wants to leave their phones on the side and miss opportunities to capture the fun in the water. Now, they have the option of making their phones completely waterproof," said Panattoni.

Offered in both blue and black, the [WaterSeals Tech-Protect Automatic Magnetic Waterproof Pouch](#) fits up to the size of an iPhone 6. It is available immediately.
