SOLITE LAUNCHES INNOVATIVE LUGGAGE WITH 61 YEARS OF EXPERIENCE

LAS VEGAS (April 5, 2017) – Solite International is making its debut at Booth #2001 in the International Travel Goods Show, held at the Las Vegas Convention Center, April 5-7, 2017. The luggage company is displaying a variety of products with innovative features designed to meet the changing needs of today’s modern traveler.

Patented designs exclusive to Solite will be unveiled for the first time at the International Travel Goods Show, including:

Solite 601 Hardside Series

The 601 is built to last with a durable, lightweight polycarbonate shell, moisture-wicking interior with removable wet pocket, and built-in TSA lock. Side handles pair with the exclusive lightweight trolley handle and patented noise reduction wheel for ease of movement and control. The 601 also features a hidden expansion zipper and mesh compartment divider to offer versatility in packing without compromising on design.

Solite 603 Softside Series

The 603 is made of upgraded nylon with a Teflon coating for increased durability. The low-top profile, side carry handles, exclusive lightweight trolley handle and 8-wheel spinner system give the 603 a sleek yet functional design. The 603 comes with two shoe pockets and a mesh interior compartment for more organized packing, plus a moisture-wicking liner and TSA lock to keep it all protected. Plus, the 603’s patented expandable feature uses wire tension technology to expand or contract and keep your items exactly

how you packed them.

Solite International was originally founded in 1955 as the Nan Zong Group. The brand has transformed from a leading luggage manufacturer to a global company focused on designing innovative new travel products. The Solite team utilizes their 61 years of experience and high-end technology to generate

industry-changing ideas and provide today's modern traveler with practical, innovative luggage products that look stylish and last a lifetime.
