

Save Time and Money When Traveling with Stow-N-Go

*Stow-N-Go Portable Luggage System Makes Packing, Unpacking a Snap
More Carry-On Space Means Fewer Checked Bags*

LAS VEGAS, Nev. Feb. 27, 2018 — Grand Fusion Housewares, Inc., is excited to introduce the [Stow-N-Go Portable Luggage System®](#). This patented, new product is a three-tiered hanging luggage organizer that makes packing and unpacking quick and easy, saving up to 30 percent of suitcase space while keeping clothing secure and wrinkle-free. The Stow-N-Go® fits in any standard size carry-on bag 20 inches or larger.

To use:

- Clear a small space roughly 18-inches wide in your home closet;
- Hang Stow-N-Go® on the closet rod;
- Pack the shelves with shirts, pants, skirts, dresses, shoes, belts, under garments and more;
- Place inside suitcase and secure the two straps. Tighten as needed.

When you get to your destination, just release the straps and hang in your hotel closet, from a shower rod or even the side of a desk. The Stow-N-Go becomes your closet on the road so you never have to unpack. The zippered bottom pouch can be used for dirty clothes or to store intimates you don't want others to see when going through security. The Stow-N-Go can even be used as a handy closet organizer at home.

Stow-N-Go is available in a variety of sizes and colors.

- The large Stow-N-Go has three shelves that are 17.7 inches wide by 11.8 inches deep. It is 25 inches high when in use. It is available in black, blue, and pink polyester fabric with a \$29.99 SRP.
- The large gray Stow-N-Go is made with a sturdy polyester-linen blend and has an SRP of \$49.99.
- The small Stow-N-Go has three shelves that are 11.8 inches wide by 11.8 inches deep. It also measures 25 inches high when in use. It is available in black polyester fabric and has an SRP of \$24.99.

The Stow-N-Go is available on [Amazon](#), at [Bed, Bath and Beyond](#) stores and online, and at Nordstrom Rack stores. For more information and a video, visit <http://grandfusionhousewares.com/products/a278241/>.
