

## France's Most Popular Wine Carrier Hits American Marketplace

*—Extraordinarily Lightweight Transbottle Wine Carrier Gets Approval from Airlines, TSA, FAA and EASA, Making It the Perfect Gift for the Wine Lover Who Has Everything—*

(Napa, CALIFORNIA)—The best-selling wine carrier in France is now available in the United States and wine lover's arms and shoulders are thankful. A perfect gift for active wine lovers who have everything wine, the TB 6 Transbottle Wine Carrier weighs a mere two pounds empty and only 20 pounds when fully loaded with six bottles, is TSA approved, and easily loads, locks and goes in seconds. Most important, it fully protects wine treasures acquired while on the road and traveling.

Unlike the styrofoam inserts, cardboard boxes encased in vinyl, and heavy suitcases all currently passing for wine carriers, Transbottle carriers are reusable and made from ultra light and ultra strong Expanded Polypropylene. Checking wine becomes a quick, easy, safe and lightweight experience that has been approved by the airlines, FAA, TSA, and EASA.

Nothing Like the Transbottle in the United States

**Jimmy Kawalek, a Sommelier and California wine marketer, jumped at the chance to import the Transbottle Wine Carriers after wineries in France provided him with no solution for lugging about the wines he bought there during a recent trip.**

**“Since the majority of French wineries or wine shops don’t generally provide consumers with a safe and easy way to carry or ship wine, I needed to find a solution while in the country,” says Kawalek. “When I came across the Transbottle TB 6 Carrier in Paris I was shocked since nothing this light, secure and safe existed in the U.S.”**

**Kawalek knew he had a winning product when the first people to embrace the Transbottle Carriers were Napa Valley winery owners he showed it to upon returning from his trip. Now winery owners and their employees and frequent**

**guests to the Napa Valley use Transbottle to carry wines, significantly reducing the physical burden of carrying wine in cardboard boxes.**

**Transbottle Wine Carriers are available online at <http://www.transbottleUSA.com>. They are available in six (TB 6), three (TB 3) and single-bottle (TB One) variations.**

**TransbottleUSA just recently joined the Travel Goods Association and will be debuting the Transbottle line-up at the March 2019 Trade Show in Las Vegas.**
