

FOR IMMEDIATE RELEASE

HandiGuru is the New “Can’t Leave Home Without It” Summer Trip Essential, Offering Worry-Free Protection No Matter Where the Road Leads

The next best thing to running water, this comfortable, medical grade, refillable, silicone wristband offers on-the-go protection while eliminating that last-minute, get-out-the-door scramble

SANTA BARBARA, Calif. –No summer road trip, camping excursion, or travel adventure packing list is complete without [HandiGuru](#) - wearable protection from germs, sun, and other outdoor elements, now available in Australia and South Africa. Developed by Santa Barbara-based artist and innovator Benjamin Anderson, **HandiGuru** is a lightweight, 15ml refillable silicone wristband designed to carry a variety of gels and lotions for easy, on-the-go access. Replacing bulky bottles that can leak or get lost at the bottom of a backpack or purse, **HandiGuru** wears comfortably like a watch and features FDA-approved, recyclable silicone perfect for storing hand sanitizer, bug repellent, sunscreen, and more. Now, families and individuals can focus on making memories with the peace of mind that comes from always having germ protection close at hand.

“These days, you can’t leave the house without a mask or hand sanitizer to help safeguard yourself and your community,” explains Anderson. “**HandiGuru** eliminates that last-minute scramble to find essential germ protection before heading out the door. The refillable wristband is right at your fingertips and ready to use.”

Planning a camping trip and unsure about nearby water resources to keep hands clean? Concerned about maintaining safety during air travel? **HandiGuru** is the ideal alternative to running water and features a 15ml reservoir that adheres to TSA standards. Designed to wear comfortably like a watch and easily adjustable for kids and adults alike, each one-size-fits-all silicone wristband provides worry-free protection no matter where the road leads. To use, load any gel or lotion into **HandiGuru’s** self-sealing compartment with the help of the applicator bottle (included with purchase). When it’s time to reapply, simply squeeze the silicone band to release the desired amount of product - no mess, no hassle, no worries.

Restore a sense of calm with **HandiGuru** providing advanced, wearable protection from the outdoor elements. Refillable wristband kit (just \$14.95) includes a one-size-fits-all silicone wristband (15ml) and a BPA-free squeeze bottle, complete with a BPA-free applicator tip for easy refills. Stock up on protection for the entire family at [HandiGuru.com](#) and follow [@HandiGuru](#) on Instagram for updates, how-to videos, and more.

About HandiGuru:

HandiGuru was developed by Benjamin Anderson, a Santa Barbara-based professional artist of 20 years (www.benjaminanderson.com) with an innate creative spirit. Tired of carrying around bottles of gels and lotions during excursions away from home, Anderson created HandiGuru to help protect his family and community by keeping essential liquids like hand sanitizer, sunscreen, and bug repellent close at hand. Each kit (just \$14.95) includes a fully recyclable, one-size-fits-all silicone wristband (20ml) and a BPA-free squeeze bottle, complete with a BPA-free applicator tip for easy refills. Stock up on protection for the entire family at HandiGuru.com and follow on Instagram @HandiGuru for updates, how-to videos, and more. Coming soon: HandiGuru bulk sanitizer, sunscreen, and bug repellent. *HandiGuru: Protect your Om when you leave home.*
